BA.71.19	£22.90

SHUTTLECOCKS

- Developed using the flight timing of feather shuttlecocks, Mavis Nylon Shuttlecocks are precision designed and manufactured to provide accurate flight performance.
- When smashed at up to 300kph, a Mavis shuttlecock recovers in 0.02 seconds. This performance is just 0.005 seconds slower than a Yonex feather shuttlecock and 0.008 seconds faster than the recovery of an ordinary shuttlecock.
- The combination of close-to-feather shuttlecock flight performance and four to five times more durability than an ordinary nylon shuttlecock, makes the Yonex Mavis series the most cost effective choice for practice sessions.

MAVIS 10

- Great for practice and leisure play
- Medium for temperature range of 12°C to 23°C
- Fast for temperature range of 0°C to 13°C

MAVIS 300

- Great for practice and leisure play
- Medium for temperature range of 12°C to 23°C
- Fast for temperature range of 0°C to 13°C

MAVIS AS10 FEATHER

- Yonex feather shuttlecocks are the official shuttlecock of the following international tournaments, as well as many others:
BWF World Championships, Thomas & Uber Cup Finals
European Championships, Super Series Masters Finals
All England Championships, Yonex Open Japan & Olympic Games London 2012
